IMPORTANT NOTICE

Notice to Teachers

Grade 5 Mathematics Test, Book 1 March 6-10, 2006 Braille Edition Only

This notice pertains to Question 2 of the Braille edition only of Book 1 of the March 2006 Grade 5 Mathematics Test.

There is some imprecision in the diagram provided for Question 2 in the Braille edition of this test. As a result, for the Braille edition only, two of the four choices for this multiple-choice question will be accepted as correct responses when answer papers are scored. If in administering the Braille edition during the remainder of this testing period a student makes an inquiry concerning this question, the proctor should advise the student to select whichever of the four choices the student determines to be the best answer.

To ensure that students' tests are scored correctly, schools must verify that the circle next to "Braille" is darkened on the answer sheets of all students who used the Braille edition of this test.

Please photocopy this notice and give a copy of it to each teacher administering the Braille edition of the Grade 5 Mathematics Test.
